M50 Concession Ltd's Energy Policy Statement

M50 Concession Ltd (M50CL) is the company responsible for the M50 PPP (Public Private Partnership) Project under a contract signed with Transport Infrastructure Ireland (TII) (formerly the National Roads Authority) in 2007. The M50 PPP Contract comprises the design, construction and financing of 24 km of the M50 Motorway as well as the operation and maintenance of the M50 in its full length for a period of 35 years. M50 Concession Ltd.'s offices are located in Luttrellstown Road, Diswellstown, Castleknock, Dublin 15.

M50CL is committed to a sustainable way of working, using energy as efficiently as possible, complying with energy legislation and achieving targets in energy conservation. The purposes of this Energy Policy Statement are to raise awareness on energy efficiency among the organisation, to improve our performance on energy consumption and to reduce our environmental impact related to energy use. We aim to deliver on this commitment by:

- Working actively on an energy reduction programme promoting energy efficiency across all activities on site and defined in the system scope.
- Ensuring the energy policy is appropriate to the purpose of the organisation.
- Providing a framework for setting and reviewing objectives and energy targets.
- Identifying improved technologies and deploying them where reasonably practicable.
- Implementing a continuous improvement programme on energy performance, energy efficiency and the overall Energy Management System. This programme will address the products, processes and other activities with the most significant energy usage.
- Developing energy conservation action plans and regularly assessing whether the objectives and targets are being achieved.
- Providing employees with the necessary awareness, education and training to implement this energy policy.
- Ensuring the availability of information and necessary resources to achieve objectives and energy targets.
- Complying with all relevant energy legislation and other legal requirements that relate to energy consumption, energy use and energy efficiency.
- Incorporating an energy efficiency evaluation dimension to the decision-making process relating to all future relevant capital investments, facility upgrades and contracted services.
- Support the procurement of energy efficient products and services that impact energy performance where reasonably practicable.
- Support design activities that consider energy performance improvement where reasonably practicable.

This Energy Policy Statement will be communicated to all staff and is available to all interested parties and the public in general on the Company's website (www.m50concession.com). This policy is reviewed annually to ensure it remains relevant and in line with the company's objectives & targets.

Signed:

Miguel Alfonso Pujante
General Manager
M50 Concession Ltd
